ABOUT THE NATIONAL CENTER FOR HOMEOPATHY

Founded in 1974, the **National Center for Homeopathy** (NCH) is dedicated to promoting health through homeopathy by advancing the use and practice of homeopathy. NCH supports education in, awareness of, and increased access to homeopathy. NCH has the largest, most diverse membership in the homeopathic community and is the national go-to resource for all who are interested in learning about homeopathy.

NCH has nearly **3,000 members** in North America and around the globe and serves as the primary organizing body for the annual **Joint American Homeopathic Conference** (JAHC), which attracts approximately 300 attendees including homeopathic practitioners, patients, students, and holistic consumers from around the world. **For more information on the JAHC see page 4.**

A VOICE FOR THE HOMEOPATHIC COMMUNITY

We educate consumers and play an important, active role in the continuing education of practitioners who are dedicated to making homeopathy more accessible to the public. We inform legislators and work to secure homeopathy's place in the U.S. health care system, while working to ensure that homeopathy is accurately represented in the media. NCH helps our members get and stay connected to the resources they seek while being a strong and collective voice for the homeopathic community at large in the U.S. and abroad.
